Rest of skills on the portfolio

SOFT SKILLS

- Communication
- Teamwork
- Problem Solving
- Time Management
- Attention to Detail
- Adaptability

CERTIFICATIONS

LANGUAGES

100% Arabic (Native)

70% English (Mid-Level)

I'm a full-stack web developer from Cairo with 3+ years of experience turning complex ideas into clean, high-performance digital products — from PHP/Laravel backends to ReactJS front ends, with a security-conscious approach to every build. I care deeply about code quality, user experience, and shipping things that actually work beautifully.

ORGANIZATION COLLABORATIONS

Details: https://eyadashraf.dev

Full-Stack Developer — March 2024 - January 2026
IYNA Oct. Chapter, Remote

- Beyond the public-facing website, I've built and maintained the internal tooling IYNA relies on each admissions cycle — from the applicant-facing portal to the systems the review team and administrators use behind the scenes.

Full-Stack Developer & Server Admin — March 2024 - January 2026
Youth Science Journal, Remote

- Worked with YSJ across two full seasons, reusing and adapting the same platform architecture I built for IYNA — proving the system out as a scalable base rather than a one-off build.

PROJECTS

Details: https://eyadashraf.dev

EMBER - Resturant Website

- Immersive fine-dining website for Cairo's most celebrated restaurant. Features a split-screen cinematic hero, custom cursor system with trailing ring, page loader with progress bar, skeleton image loading, interactive menu tabs with panel switching, a full reservation form with validation & confirmation flow, and scroll-triggered reveal animations throughout.
- Project is live at: eyadwebdeveloper.github.io/ember-resturant ↗

IYNA Oct. Official Website

- Official website for a real published organization — the International Youth Neuroscience Association Oct. Chapter. Full production site built and deployed live at iyna-oct.com ↗

YS Journal Official Website

- Official journal website for a real published organization, built entirely with React.js and deployed live at ys-journal.org — a modern, responsive publication platform, website live at: ys-journal.org ↗

Al-Noor Travel - Tourist Website

- Premium Hajj & Umrah travel platform with luxury package showcases, immersive hero, multi-step booking UI, and full Arabic RTL support.
- Project is live at: eyadwebdeveloper.github.io/al-noor-travel ↗

Climate Cast App

- Real-time weather dashboard with 7-day forecast, location search, and beautifully animated condition displays. Deployed on Vercel.
- Project is live at: climate-cast-app.vercel.app ↗
